

# Cove Sizing Guide

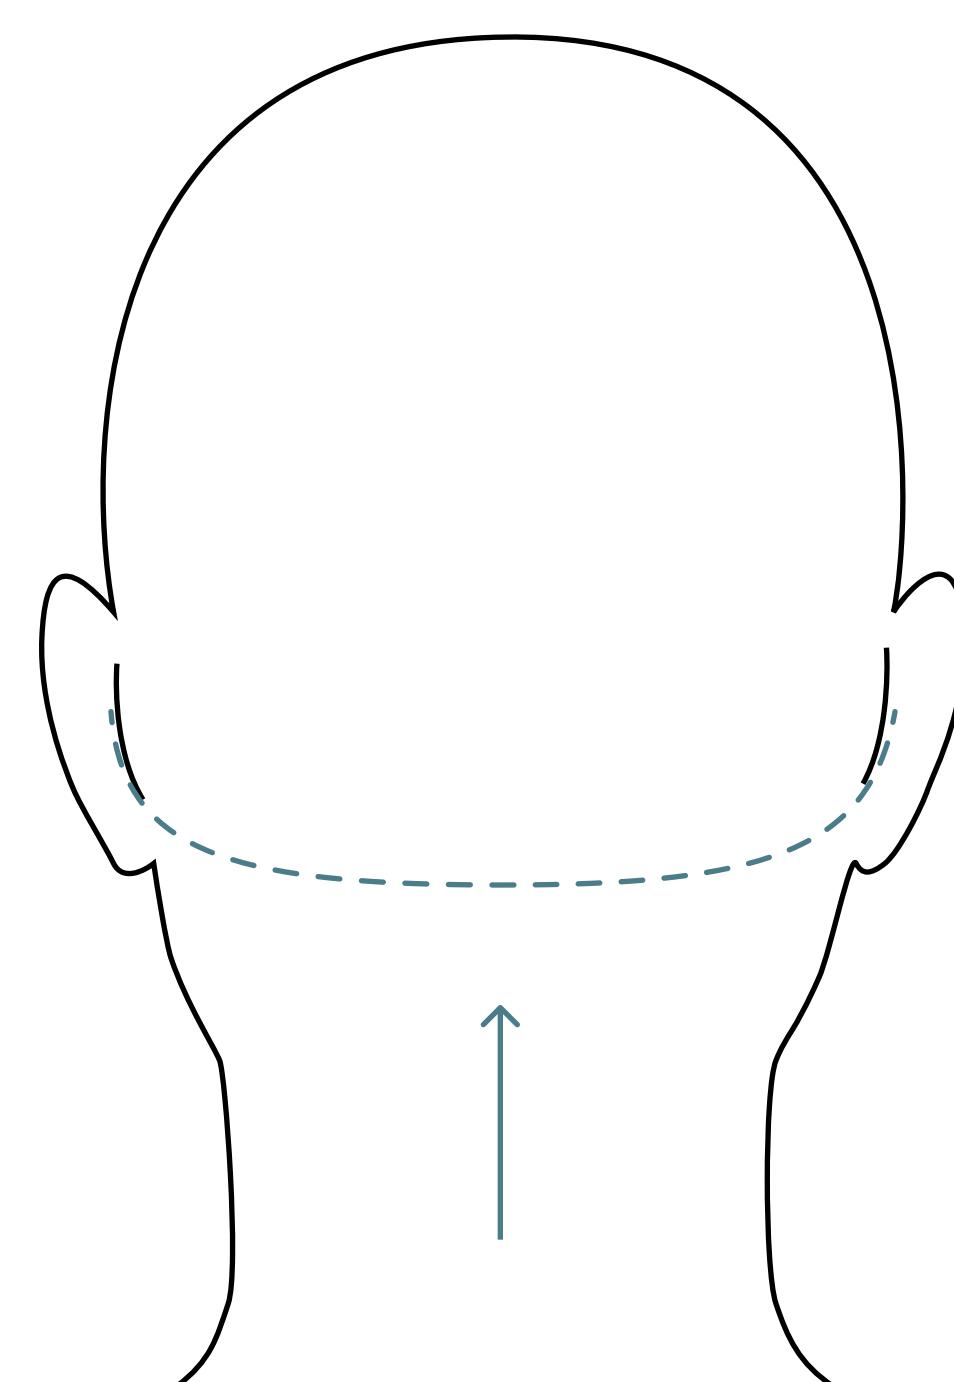

To see if Cove will fit your head, use this paper ruler, a cloth tape measure, or a piece of string. For the paper ruler or a piece of string, print this page with no scaling or zoom, and cut out the ruler.

## To Measure:

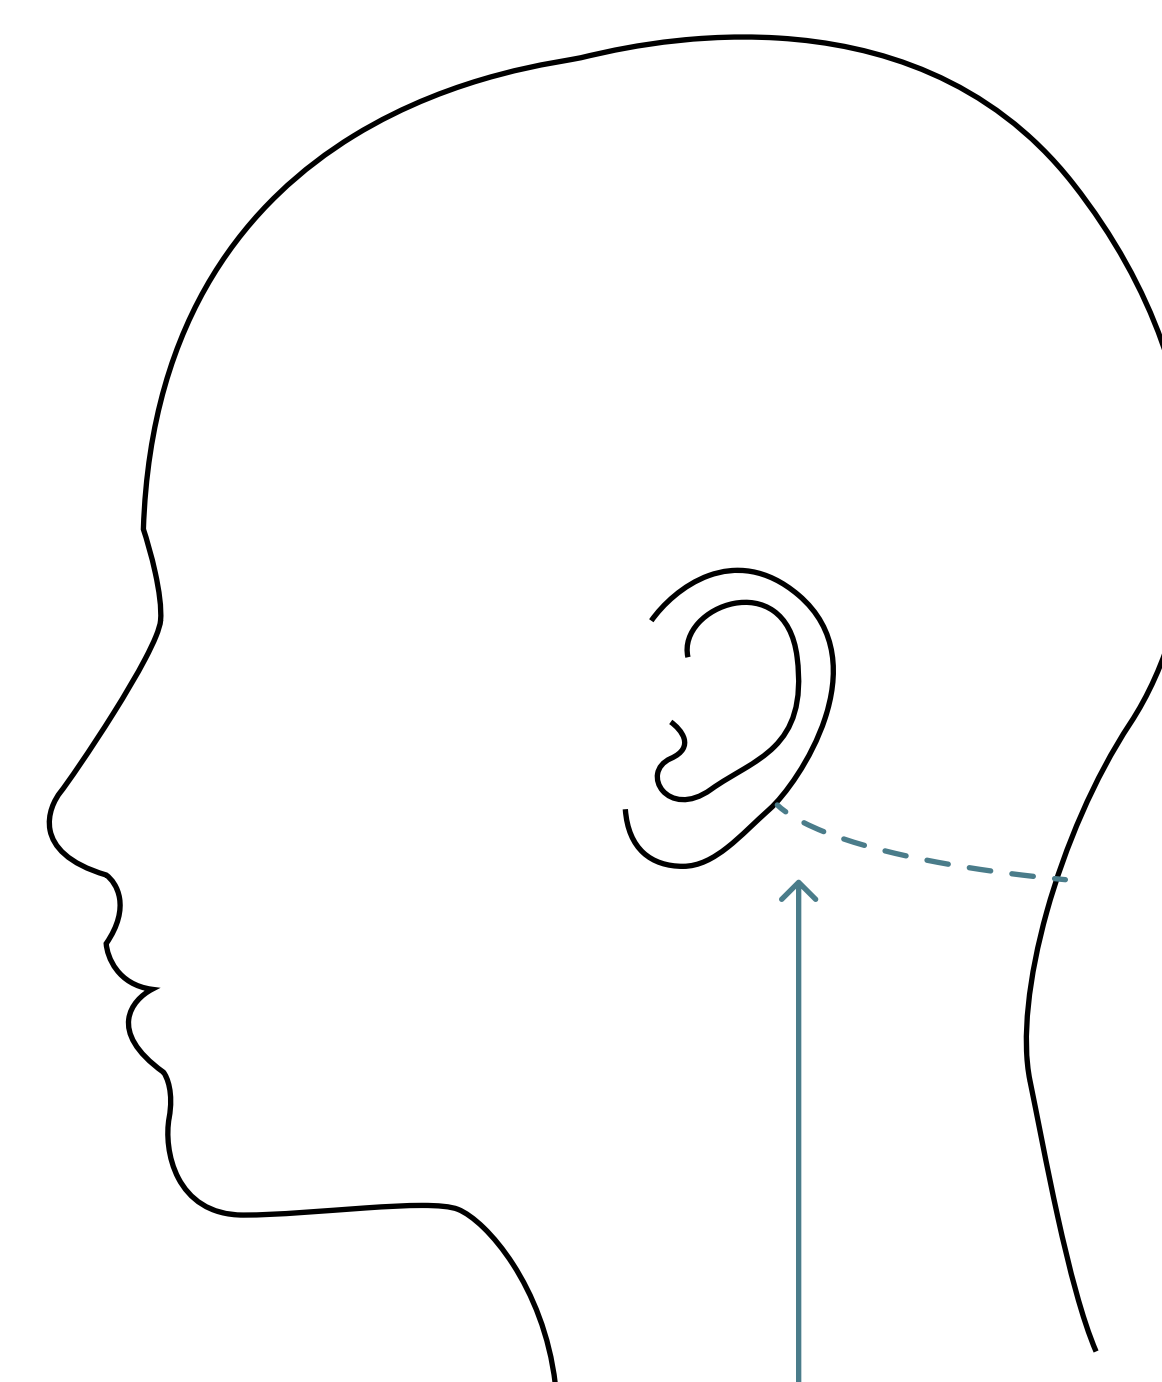

1. Use the guide below to ensure the scale is correct.
2. Start and end behind your ears, not on top of them.
3. Stand up straight, and look straight ahead.
4. Measure from ear to ear, across the back of your neck.

## For string

Pull the string tight when measuring, and hold firmly at each end. Then compare against the paper ruler.

measure here behind head

measure from ear to ear

/// If your measurement falls within the greyed area, then Cove may not fit comfortably.

Place credit card or ID below to confirm the measurement tool was printed at 100%.
